PROFESSIONAL SUMMARY

Full-stack web developer with professional experience at Zkript Solutions OPC, building production and pre-launch applications with TypeScript, Next.js, React Native, NestJS, Express.js, and MongoDB. Contributed to Koobo (koobo.ph), a live booking platform, and JeiChat, an internal employee messaging PWA. Seeking junior full-stack roles.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS, Python, SQL

Frameworks: Next.js, React.js, React Native, NestJS, Express.js, Django, Flask, Tailwind CSS

Other: Progressive Web Apps (PWA), REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, Bruno, Figma, Postman

EXPERIENCE

Zkript Solutions OPC — Full Stack Web Developer | September 2025 – October 2026

- Built and maintained full-stack web and mobile applications using TypeScript, Next.js, React Native, Express.js, NestJS, and MongoDB across 5 internal projects.
- Worked within an agile development process — sprint planning, daily standups, task breakdown, and iterative delivery of features and bug fixes.
- Developed Koobo (koobo.ph), a production booking platform for Siargao stays, activities, and rentals — implementing booking flows, host listings, and payment integration (cards & GCash).
- Developed JeiChat, an internal Progressive Web App (PWA) for employees with real-time messaging and a ticketing system integrated with the company's GitHub organization repositories.
- Contributed to a pre-launch React Native mobile application for EV drivers to discover and navigate to charging stations, including location-based search and map navigation features.
- Designed and tested REST APIs with Bruno; managed code and collaboration via GitHub (pull requests, code reviews, and version control).
- Collaborated with the team to debug cross-stack issues, align API contracts between frontend and backend, and deliver features through iterative development.

PROJECTS

- **Student Council Online Voting System (2024)** — Online election platform for AMACC Fairview with 130+ users.
Technologies: React.js, Tailwind CSS, Django, Python, MySQL, Microsoft Azure, Git, GitHub
- **Personal Portfolio (2025)** — <https://hannah01-20.site>
Technologies: Native HTML, CSS, JavaScript, Git, GitHub Pages

CERTIFICATES

Certificate of Appreciation (2024) – Contribution in developing online voting system for SC election.

PCAP: Programming Essentials in Python and JavaScript Essentials 1 (2023) – Cisco Networking Academy

CPA: Programming Essentials in C++ (2024) – Cisco Networking Academy
