HANNAH GRACE B. FLORANO

hannahg.florano@gmail.com | +63 915 346 4795 | linkedin.com/in/hannah-grace-florano | github.com/hannah01-20

PROFESSIONAL SUMMARY

Full-stack developer with 1+ year of experience building production web and mobile apps with TypeScript, Next.js, React Native, NestJS, and MongoDB, including booking, payout, and real-time messaging features, with Jest and Playwright test coverage.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS, Python, SQL

Frameworks: Next.js, React.js, React Native, NestJS, Express.js, Django, Tailwind CSS

Databases: MongoDB, MySQL

Concepts: Progressive Web Apps (PWA), REST APIs, Real-time (WebSockets), Authentication & Authorization

Libraries/APIs: Socket.IO, Mapbox, iCal, Mongoose

Tools: Git, GitHub, Postman, Bruno, Figma, Expo (EAS)

Testing: Jest, Playwright

EXPERIENCE

Zkript Solutions OPC — Full-Stack Web Developer | September 2025 – October 2026

Built full-stack web and mobile apps across 5 client and internal projects in an Agile/Scrum team.

Koobo (koobo.ph) — Live booking platform for Siargao stays, activities, and rentals (105 listings)

- Implemented listing snapshots so past bookings keep the listing details from the time of booking.
- Built iCal calendar sync so hosts listing on other platforms automatically block unavailable dates, preventing double bookings.
- Developed host, affiliate, and platform payout splits with Mongoose, verified via MongoDB aggregation.
- Wrote unit tests (Jest) and end-to-end tests (Playwright) for the reservation and payment flows.

JeiChat — Internal employee messaging PWA

- Implemented real-time messaging with Socket.IO, including typing indicators and automatic reconnection so conversations recover after network drops.
- Added push notifications so employees receive new messages even when the app is closed.

EV Charging App — Pre-launch React Native app for EV drivers

- Translated Figma designs into interactive screens with Mapbox-powered station maps, location-based search, and navigation.
- Ensured consistent UI and behavior across iOS and Android, and produced Expo development builds for internal testing.

PROJECTS

- **Online Voting System (2024) —** Election platform for AMACC Fairview used by 130+ students. Implemented authentication and vote tallying. Received a Certificate of Appreciation from the Student Council.
  Technologies: React.js, Tailwind CSS, Django, Python, Azure Database for MySQL, Azure App Service
- **Personal Portfolio (2025) —** hannah01-20.site — Deployed on GitHub Pages with a custom domain, DNS, and HTTPS.
  Technologies: HTML, CSS, JavaScript

EDUCATION

- **Bachelor of Science in Computer Science (2025) —** AMA Computer College - Fairview
